

JUNE 9TH, 2025 WTWMA FLIGHT TRACKS GRAPHIC

- Red Ovals: denote where seeding took place during the mission
- Red Arrows: indicate the direction the seeded clouds went
- Red Numbers: depict the order of seeding that evening
- White X: marks the approximate location where the Irion County hailstorm initiated
- White Arrow: denotes the path the Irion County hailstorm storm took, a curved path which is typical for rotating supercell thunderstorms
